Civil Engineering Department

VOL : I

JAN 2018

## DIRECTOR'S DESK

**Achyut Sawantbhonsale**  
Executive Chairman, SYBES

I am really happy to note that the department of Civil Engineering is bringing out a Newsletter 'The Achievers' Scroll' enlisting all their achievements pertaining to students and faculty members. I wish every student of this department should equip with knowledge relating to latest construction techniques. I congratulate the entire editorial team and students of civil department for their solidarity in bringing out successfully the first edition. Eventually the students and faculty members will be highly benefited in creating a good academic ambience. I wish a great success for The Achievers Scroll.

## Editorial Committee

### Editor in Chief

Mr. G. A. Bhosale (I/c Principal)

### Co-Ordinators

Mrs. Sarita Sawant-Sandye (Lecturer)  
Ms. Shraddha Rawool (Lecturer)

### Departmental Faculty Members

Mr. Parth D. Naik (Lecturer)  
Mr. Hawabi S. Shaikh (Lecturer)  
Mr. Rahul Sangale (Lecturer)

## VISION

Instil fundamental principles of Civil Engineering in our students which inspire them to create innovative solution.

## MISSION

1

To develop problem solving skills of our students through quality education and team synergy.

2

To introduce our students and faculties with outside world for their holistic development.

3

To serve the society through technical contribution in Civil Engineering.

## Students' Success in MSBTE Winter 2017 Exams

**Chaitanya Chindarkar**  
TYCE 90.82%

**Manasi Salkar**  
SYCE 87.27%

**Shruti Walke**  
FYCE 80.00%

YBP is an evolving institute which sets very high standards for its students not only in academics but also in general discipline. Students of Civil Engineering Department excelled in winter 2017 examination. All the classes of Civil Department showed good overall passing percentage as well as individual performances. These results are a reflection of the hard work of the students and their faculty members. These results show the positive effect of modern teaching methods like 'Outcome based teaching' which is student oriented method of teaching.

Chaitnya Chindarkar from TYCE stood first with 90.82%. Manasi Salkar from SYCE stood first with 87.27%. First year student Shruti Walke secured first position with 80.00%. All the successful students were felicitated at the hands of Mr. Achyut Sawantbhonsale.

## HOD'S DESK

**P. J. Farakate**  
I/C HOD, Civil Dept.

It gives me an immense pleasure to introduce the inaugural edition of our Newsletter "The Achievers Scroll". Our Newsletter will serve as a channel to showcase various activities and achievements of our department.

Infrastructure in India is going to be developed at large scale and high pace in the next coming years. So, we are contributing to meet these requirements in the form of shaping quality Civil Engineers. Our Civil Engineering Department focuses on imparting the basic knowledge on Building construction, Drawing, Design, Structures, surveying. Apart from this, department is committed for all round development of our students.

Civil Engineering department is proud to have well-equipped laboratories of Concrete Technology, Strength of Materials, Surveying, Geotechnical engineering, Public health engineering, Building Construction, Material Museum, Hydraulics, Autocad etc. The department also offers consultancy in various fields of Civil engineering to reputed government and private sectors.

# Civil leaves distinct mark in Sports Fiesta 2017-18

Students of civil engineering department performed exceptionally well in the annual sports fiesta of YBP. Students participated with great enthusiasm and sportsman spirit which was reflected in their results. Especially the girls teams and individual participants dominated every sport in the event. Girls won the cricket and tug-of-war events and were runner up's in Kho-Kho. Even in individual events the girls showed their mettle winning 4 events and securing 2<sup>nd</sup> / 3<sup>rd</sup> places in other 4 events. As a result the General Championship (Girls) was awarded to the Civil Department. Some notable performances were of Sneha Jadhav (TYCE) winner in Carom competition and Yukta Sawant (SYCE) winner in Badminton competition.

The boys performed equally well in individual events but didn't have much luck in the team sports. Pratik Harmalkar of TYCE was awarded Best Sportsman for his feats in athletics. Boys showed great fighting spirit and determination on the field which won them 1<sup>st</sup> place in 400m Relay and runner-up

position in volleyball.

Annual sports events are conducted to inculcate qualities like leadership, team work and sportsman spirit. These qualities are essential for overall development of character, which cannot be taught through academics in the confines of a classroom. Apart from Sports, Civil students showed active participation in the Cultural events too.

★★★

## Industrial Visit to Water Treatment & Sewage Treatment Plant

The Industrial Visit Of Third Year Students of Civil Department was organized on Tuesday 1<sup>st</sup> of September 2017 at Ichalkaranji. The Visit was arranged to bring over all ideas about the hydraulic system of water treatment plant and sewage treatment plan. The Visit was very useful to the students as students experienced clear ideas and Practical Knowledge, which will make students more confident.

★★★

## Continuing Education Programme

The Continuing Education Programme was organized by the Civil Engineering Department of Yashwantrao Bhonsale Polytechnic, Sawantwadi at Seminar hall from 30th July - 01 August 2017 to instruct and improve the construction skills of the labours.

## Parents Meeting

Parents meeting was arranged by Civil Engineering Department at Seminar hall on 19th August 2017 to give information about Civil staff members and the academic activities including industrial visits and guest lectures.

## STUDENTS' CORNER

It's like a dream come true, being a part of an institute like Yashwantrao Bhonsale Polytechnic. It is a huge feeling not only for me but for every student of YBP. YBP was established in 2014, offering diploma courses in Civil, Electrical and Mechanical Engineering fields. Since then Mr. Achyut Bhonsale sir and all the experienced faculty members have been working with only one mission to make every student competent, practically trained, physically and mentally strong so that they can face the future challenges

We are YBPians and it's our honour to be a part of this family. My journey of two years with the

YBP family has been incredible. Every activity held in the campus is enthusiastic. The principle of YBP is based on 3-D's Discipline, Dedication and Devotion. It helps in all round development of the students.

Technical knowledge we get in YBP is market oriented as well as competitive. The workshop held in YBP like "Ultratech One Day Workshop on Masonry and Plastering" was very helpful as a civil engineer. Also industrial visits give us first-hand knowledge about the modern techniques in construction and current demands in market.

Working as CESA members in various activities we developed personal skills like team building, leadership, communication, management, organization, stage daring etc. The annual Gathering, Sports and all other functions are celebrated with high standard and discipline. I am proud to learn in this clean and green campus of BKC.

**Chaitanya Chindarkar**  
TYCE

with ease. After passing my SSC exams, I decided to go for Diploma in Civil Engineering. But my friends and well-wishers were skeptical of my decision as they didn't think Civil Engineering was fit for girls. But my parents supported my decision and allowed me to apply for Civil Engineering course at YBP. Till date I have passed all my exams with flying colors and will continue performing to the best of my abilities.
