

Decentralization in working and grievance redressal mechanism

Various committees have been framed in our polytechnic in order to redress the problems and grievances of the students. For every committee, a senior faculty member was designated as member and convener. Every committee has defined roles and responsibilities as mentioned below of the composition of the each committee. It is the responsibility of the convener/president to convene the meeting as frequently as possible among the members to discuss the issues related to the responsibilities assigned to the concerned committee. Based on the nature of the problems arose, the convener/president will take necessary remedial actions. If the remedial action requires attention of the Principal and Management, then it will be immediately brought to the notice of them for necessary action. This kind of work culture will resolve the problems as when arose and make the remedial system effective and speedy.
